Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: See the Examiner's Amendment. In order to correct minor word processing errors, the Examiner proposed changing "I" to -- i -- in the claims and the amendment to page 5 of the specification submitted January 31, 2007. The Examiner also proposed deleting in claim 7 the claim language, "and further provided that the alloy is not a binary alloy of Co and Ni" in that this language raises the issue of new matter and is not necessary in view of applicants' arguments and amendments.
